If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. (In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

Applicants petition to revive the present application from abandonment because the abandonment was unavoidable.

This application became abandoned because of a failure to respond to the Non-Final Rejection dated February 2, 2009. The Office Action letter was mailed to the wrong address. The Notice of Abandonment was also mailed to the same wrong address.

The Non-Final Rejection dated February 2, 2009 followed the filing of a Request for Continuing Application which contained a change in Power of Attorney and Change of Address form. The same form requesting a change in address was filed earlier also.

Applicants request revival of the patent application and consideration of the enclosed Amendment in reply to the outstanding Non-Final Rejection of February 2, 2009.

Details and 3 sheets of supporting documents are attached.

(Please attach additional sheets if additional space is needed.)

For the convenience of the reviewer of this petition, the following chronology highlights recent actions taken and not taken resulting in the Office Action dated February 2, 2009 and the Notice of Abandonment of September 17, 2009 being mailed to the wrong address.

During prosecution of this patent application:

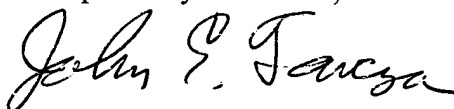

- 1.) On December 26, 2007, an amendment with Power of Attorney and Change of Address was filed by mail. The USPTO received the amendment on December 27, 2007 and is referred to as the December 27, 2007 amendment below. The amendment specifically included the Power of Attorney and Change of Address form in the list of Enclosures. A copy of this paper with the USPTO date stamp is attached. This was obtained from the image on the USPTO's PAIR system.
- 2.) On April 3, 2008 a final rejection was mailed to the wrong address. It appears the Change of Address was ignored or not properly processed. The final rejection did address the merits of the December 27, 2007 amendment.
- 3.) While never actually received by the undersigned, some type of Office Action was expected about two to three months after filing the amendment of December 27, 2007 and a copy of the April 3, 2008 rejection was obtained.
- 4.) On June 3, 2008 an amendment was filed along with a copy of the Power of Attorney and Change of Address form filed December 27, 2007. The undersigned specifically requested the Change of Address be made in the June 3, 2008 amendment on page 10, third paragraph and also listed the Change of Address form in the Enclosures listed at the end of the amendment. A copy of the Power of Attorney and Change of Address Form with both the December 27, 2007 and the June 3, 2008 date stamps is attached. The copy was obtained from the image on the USPTO's PAIR system.
- 5.) On June 18, 2008 an advisory action was mailed to the wrong address. It appears the Change of Address was ignored or not properly processed for the second time. The advisory action addressed the merits of the June 3, 2008 amendment.
- 6.) While never actually received by the undersigned, some type of Office Action was anticipated within a month or so after mailing the June 3, 2008 amendment and a copy of the advisory action was obtained.
- 7.) A divisional application 12/214,161 was filed June 18, 2008 (actually mailed June 16, 2008) along with a request to change the correspondence address to the new address.
- 8.) On July 11, 2008 an Official Filing Receipt for the divisional application was mailed with the correct mailing address. This suggests, but does not prove, that the USPTO is aware of the correct mailing address.
- 9.) On October 6, 2008 (actually mailed October 3, 2008) a Request for Continuing Application (RCE) was filed requesting automatic entry of the Amendment after final of June 3, 2008 which included the Power of Attorney and Change of Address form, and the request on page 10, paragraph 3 of that paper, and the listing of the Change of Address in the Enclosures section at the end of that paper. According to the image on the PAIR system for this date, a handwritten note appears on the first page of the amendment stating "RCE entered with Af 10/6/08". Attached is a copy of this page obtained from an image on the USPTO's PAIR system.

- 10.) Because no particular time period is expected for the USPTO to provide a first Office Action of the RCE and because the most recent correspondence for this invention received from the USPTO was the July 11, 2008 paper with the correct mailing address, and because the handwritten note indicated the amendment was entered, the undersigned considered the address to have been changed and there was no need to monitor the PAIR system.
- 11.) On February 2, 2009 a non-final rejection was mailed to the wrong address.
- 12.) On September 17, 2009 a notice of abandonment was mailed to the wrong address.
- 13.) Recent business needs of the patent owners caused a review of this patent application whereby it was discovered to have gone abandoned.

Conclusion: The most recent Office Action was mailed to the wrong address causing the application to become abandoned. Three papers were filed on three different occasions, each requesting change in Power of Attorney and Change in Address. None of these were processed appropriately.

Therefore, this situation rises to the level of "unavoidably" abandoned.

Respectfully submitted,
